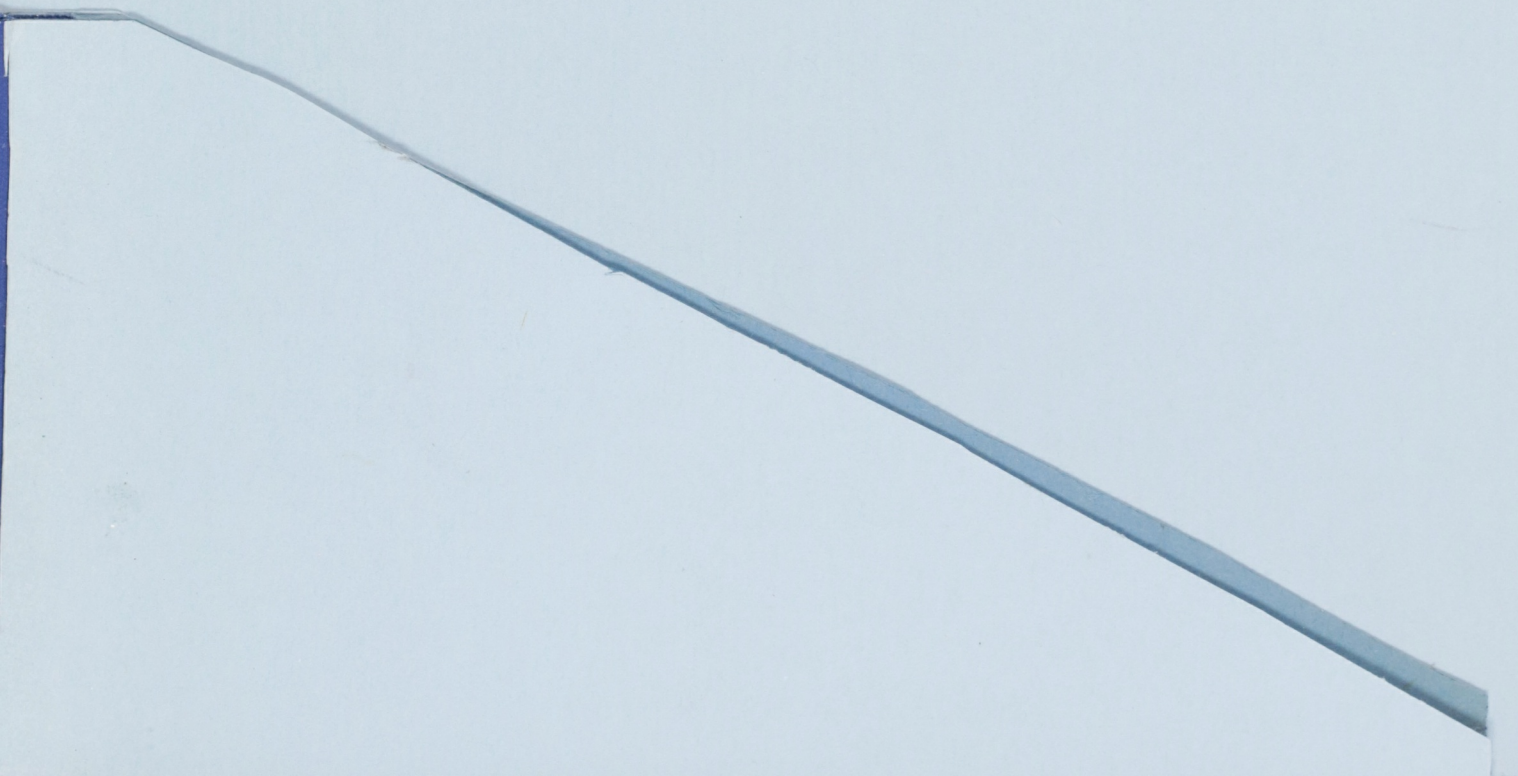
REGISTER OF YACHTS

1974

REGISTER BOOK DEPARTMENT

YACHT SECTION



REGISTER OF YACHTS

1974

87TH EDITION

LLOYD'S REGISTER OF SHIPPING LONDON

YACHTING PUBLICATIONS ISSUED BY THE COMMITTEE OF LLOYD'S REGISTER OF SHIPPING

REGISTER OF YACHTS

Published annually in April. Two supplements are issued, one with the Register and the second about the end of July.

SAIL NUMBERS OF RACING YACHTS

Published annually in April.

FLAG BOOKLET (1971 edition).

REGISTER OF AMERICAN YACHTS

Published annually in April it contains the names, dimensions, and full particulars of yachts of the United States and Canada, so far as they are ascertainable; reproductions in colour of the burgees of yacht clubs and the private signals of yachtsmen; a list of yacht clubs with the names of their officers; an index of signal letters; late names of yachts; and a list of yacht owners of the United States and Canada, with their addresses, clubs and yachts.

Also issued separately, Club Burgees and Private Signals (in colour).

RULES FOR THE CONSTRUCTION AND CLASSIFICATION OF YACHTS

Vol. I WOOD AND COMPOSITE YACHTS (Sailing, Auxiliary, and Full Power).

Vol. II STEEL YACHTS (under revision).

Vol. III YACHTS OF THE INTERNATIONAL RATING CLASSES.

PROVISIONAL RULES FOR THE CONSTRUCTION OF REINFORCED PLASTIC YACHTS.

A GUIDE TO MACHINERY AND ELECTRICAL EQUIPMENT IN YACHTS

Enquiries regarding the above publications should be addressed to

The Secretary, Lloyd's Register of Shipping, 71 Fenchurch Street, London, EC3M 4BS

YACHT SERVICES. Details of the services offered by Lloyd's Register of Shipping for supervision of new yacht construction and inspection of existing yachts may be had on application to Yacht and Small Craft Department, 69 Oxford Street, Southampton SO1 1DL.

THE REGISTER OF YACHTS

Subscribers are entitled to have full particulars of their yachts entered in the Register, irrespective of size; otherwise it is the practice to restrict the entries in general to sailing yachts of a sail area not less than 350 sq. ft. and to motor yachts of 27 ft. and over on the water line.

The mere entry of the particulars of a yacht in the Register of Yachts does not constitute either classification or official registration. Classification is referred to on the next page, but official registration, not being a function of Lloyd's Register of Shipping, is dealt with by the National Authority of the Country to which the yacht belongs. In the British Isles it is effected through the Commissioner of Customs, who is represented as Registrar by the Chief Officer of Customs at the Port of Registry chosen by the Owner. In countries of the British Commonwealth it is a matter for the officer appointed by the appropriate authority. Further information on the subject of official registration may be obtained from the Registrar-General of Shipping and Seamen, Llantrisant Road, Llandaff, Cardiff, CF5 2YS.

Cuttings of the craft listed in the main section of the Register are sent to Owners annually at the beginning of October, and should be returned promptly with any necessary comments. In the absence of any information from the Owners or other sources over a considerable period, it is assumed that the standing entry is no longer reliable, and the particulars are removed from the Register.

The Register lists details of many Canadian yachts; but as regards United States craft only the larger yachts and those holding the Society's classification are included in this volume. A separate Register containing a list of yachts of the United States and Canada is published annually in April. The Register of American Yachts is obtainable from the Society's office at 17, Battery Place, New York, N.Y. 10004, or through the Society's London office.

The Secretary wishes to thank Yacht Owners for their co-operation and hopes that this will be continued so that the Yacht Register may be as comprehensive and accurate as possible.

YACHT CLASSIFICATION, BUILDING UNDER SUPERVISION WITHOUT CLASSIFICATION AND CONDITION SURVEYS

Classification

Classification is open to all types of yachts provided the constructional details conform to the requirements laid down by Lloyd's Register of Shipping. An Owner desiring classification should, when ordering a new yacht, specify that the yacht be built to Lloyd's Register of Shipping class. The Builder will then, through the Designer, become responsible for submitting the necessary plans for the Society's approval, and will request a special survey during construction in accordance with the Society's requirements, so that the appropriate class may be assigned on completion.

For maintenance of classification, periodical surveys and repairs are carried out under the supervision of Lloyd's Register of Shipping Surveyors; such a procedure helps to keep a yacht in a high state of efficiency and to preserve her sale value, in addition to the benefit of having a competent, independent and experienced organisation to safeguard the Owner's interest. A record of each periodical survey is made in the Yacht Register.

Building under supervision without classification

This is a service similar to classification which is available to Owners or Builders whose yachts are not being constructed to the full requirements of the Rules. However, Lloyd's Register will not undertake this service if it is considered that the design or scantlings are unsatisfactory. In addition, the Society must be assured that the structural arrangements meet the Owner's or Designer's requirements.

Plans of the hull and machinery must be forwarded for inspection before surveys of this type can be undertaken.

On completion and after examination afloat, if the requirements for the hull and machinery and the electrical equipment have been met, the Committee will issue a certificate to this effect and a five pointed star will be inserted in column eight of the Register of Yachts against the particulars of the yacht. This indicates that the yacht has been built and the machinery and electrical equipment installed under the Society's supervision and that as far as can be ascertained from the general examination and trial after installation the machinery and electrical equipment were found to be satisfactory.

Reinforced Plastic Yachts

The preceding paragraphs also apply to reinforced plastic yachts, but, in addition, it is a prerequisite that hulls shall be moulded in premises which have been inspected and approved by Lloyd's Register of Shipping. The Society is also prepared to supervise the fitting out of these yachts to meet individual Owner's specifications.

Condition Surveys

The Committee of Lloyd's Register of Shipping is prepared to undertake Condition Surveys on yachts, whether classed or not, prior to purchase or in any other circumstances. In certain instances the Society reserves the right to decline such surveys. Details of this service, and of the terms on which it is undertaken, will be supplied upon request to:—

The Secretary,
Lloyd's Register of Shipping,
Yacht and Small Craft Department,
69 Oxford Street,
Southampton, SO1 1DL.
Tel. Southampton (0703) 20353

Lloyd's Register of Shipping Surveyors qualified to undertake surveys on wood yachts are stationed at London, Glasgow and Southampton and can, by arrangement, hold surveys at other ports in the U.K., or Europe.

BOWMAKER MARINE FINANCE

Marine mortgage, hire purchase, personal loan...which is best for your particular requirements?
It's not easy to decide without help from people who really know what they are talking about. Which is precisely the sort of help that Bowmaker Marine Division provides.
So if you are thinking about a new boat, or a major refit, get in touch with Bowmaker right away.
It could save you a lot of time and trouble.

The true measure of marine perfection
Lloyd's classification ✠100A1

Our perfect range of sailing yachts includes Pionier 10, Spanker 12·8, Gallant 53 and Ocean 71, all built to comply with Lloyd's rules for Classification ✠100A1. The 28 ton (T.M.) Gallant 53 and the 71 ton (T.M.) Ocean 71 are being exported throughout the world, and the latter is the largest glassfibre yacht in production anywhere. Full particulars on all vessels are available on request.

Lloyd's Yacht Trophy awarded Gallant "Alaunt of Corfe" 1968.
Designs by E. G. van de Stadt. Mouldings by the Tyler Boat Co. Limited.

Berthon: the brokers who get results

and we keep on getting results because we are experienced yachtsmen actively involved in the yachting scene: More important, we have the full weight of the Berthon Boat Company and Lymington Marina facilities behind us.

The Marina provides us with an ideally situated 'shop window' which inevitably attracts potential buyers.

The Yard provides the essential facilities for arranging surveys, repairs, etc.

The comprehensive range of services available to our clients includes:

Insurance
Finance
Design and New Construction
Yacht maintenance and storage
Chandlery and equipment
Marina berths

The experience and expertise of one of the largest and most successful yacht yard and marina companies in Europe are yours for the asking.

KEY TO REGISTER OF YACHTS

SYMBOLS OF CLASSIFICATION AND CERTIFICATION, COLUMN 8

(All Abbreviations employed in the Register are explained in the Alphabetical Key, pages xx and xxii).

✠ This symbol denotes the yacht was built under the supervision of the surveyors in accordance with the Society's Rules, thus ✠**100A1**.

100A1 Yacht This class is assigned to wood, composite, steel, aluminium, reinforced plastic and ferro-cement yachts built in accordance with, or by standards equivalent to, the relevant requirements of the Society's Rules for the construction and classification of yachts.

100A1 Catamaran or Trimaran These classes are assigned to catamarans or trimarans built in accordance with the Society's Rules and having scantlings and arrangements as approved for such yachts. It is a condition for the assignment of these classes that the carrying capacity is approved and that this loading is not exceeded in service. The loading is entered on the classification certificate.

★ This sign indicates that the construction of the yacht has been supervised by a Surveyor to Lloyd's Register of Shipping, that satisfactory trials have been held and that the materials and workmanship have been found satisfactory. It does not mean that the yacht has been built to the requirements of the Society's Rules for the Construction and Classification of Yachts.

1 The figure **1** after the class character denotes that the yacht is well and efficiently equipped in accordance with the Society's Rules for Yachts (*see* Equipment Tables).

— A line thus — after the class character denotes that the full requirements of the Society's Rules for Yachts in respect of equipment have not been complied with, but the equipment fitted is sufficient for the efficient working of the yacht.

In the case of yachts classed **R**, the equipment requires to be in accordance with the Rules for Yachts of the International Yacht Racing Union Rules and the figure **1** for equipment therefore does not apply.

International Rating Class Rules

In the case of yachts designed and intended for racing under the International Rating Class Rules, the following characters of classification and notations are assigned:—

R with a term of years. This class is assigned to wood yachts designed and intended for racing under the rules of the International Yacht Racing Union for the International Rating Classes and built in accordance with the Rules for the Construction and Classification of yachts of the International Rating Classes, and the Society's requirements for this class. All yachts thus designed and built are entered in the Register of Yachts with a notation in column 2 reading "Built to International Rating Class ... metres". The figures prefixed to the character thus, **16R, 14R,** indicate the term of years for which the yacht is initially classed.

R* with a term of years. This class is assigned to wood yachts built to the class **R** but which no longer hold a valid rating certificate because of alterations, and whose scantlings and arrangements are not such that the class **100A1** may be assigned.

SYMBOLS OF CLASSIFICATION AND CERTIFICATION, COLUMN 8—*continued*

✠LMC (LLOYD'S MACHINERY CERTIFICATE). This class is assigned to machinery built under the Special Survey of the Society's Surveyors at the maker's works and satisfactorily installed in accordance with the Society's Rules for Yachts.

★LMC (LLOYD'S MACHINERY CERTIFICATE). This class is assigned to machinery which is of standard mass production and is not surveyed at the maker's works but is satisfactorily installed in accordance with the Society's Rules for Yachts.

LMC (LLOYD'S MACHINERY CERTIFICATE). This class without the distinguishing marks ✠ or ★ is assigned to machinery of yachts submitted for Classification, which although not built nor installed under supervision, is found or placed in accordance with the Society's Rule requirements for machinery at a Special Survey for classification.

Classification of the hull is dependent on the machinery being classed in accordance with the requirements of the Society's Rules for Yachts with the exception of sailing yachts fitted with engines not exceeding 50 BHP. In the case of auxiliary sailing yachts having two engines, machinery classification is not compulsory, where each engine is under 50 BHP, although the total may be over 50 BHP.

Where yachts have been classed without classification of the machinery being required under the Rules which have now been superseded the notations (not classed) and (no longer classed) will remain in the Register of Yachts. The notation (no longer classed) denotes that classification previously assigned to machinery has been withdrawn.

NE New Engine, with date of build, indicates the new engine(s) has been accepted for class. If preceded by the sign ✠ it denotes that the engine(s) has been built under Special Survey of the Society's Surveyors. If preceded by ★ this denotes the engine(s) is of standard mass production. It has not been surveyed at the maker's works but has been satisfactorily installed in accordance with the Society's Rules for Yachts.

When column 8 is left blank, the yacht has never been classed by Lloyd's Register of Shipping.

WITHDRAWAL OF CLASSIFICATION

LR class withdrawn—Owner's request

This indicates that when an Owner requested withdrawal of class from the Yacht Register Book, the rule requirements had up to that time been complied with. After one year in the Register the notation will be altered to "Classed LR until" (with date).

LR class withdrawn

This indicates that at the time of withdrawal of class from the Yacht Register Book, survey requirements had not been complied with. After one year in the Register the notation will be altered to "Classed LR until" (with date).

LR class withdrawn—reported defects

This indicates that owing to reported defects, the yacht was not entitled to retain her class in the Yacht Register Book. After one year in the Register the notation will be altered to "Classed LR until" (with date).

LLOYD'S REGISTER OF SHIPPING

If
you intend to buy a new

GLASS REINFORCED PLASTICS YACHT

make sure that the Builder or selling Agent can furnish a

LLOYD'S REGISTER OF SHIPPING

HULL CONSTRUCTION CERTIFICATE

and then

to be certain that the fire risks, machinery and electrical problems are avoided insist, in addition, on a

MACHINERY INSTALLATION CERTIFICATE

Both these certificates are available once the constructional and machinery arrangements have been approved by the Society and the work is carried out under the supervision of the Society's Surveyors.

For yachts built under this procedure follow-up Advisory and Consultancy services and surveys are available.

EXPLANATION OF RECORDS IN THE REGISTER OF YACHTS

N.B.—The material of construction is only shown where other than wood.

Bermudan Sloop, Bermudan Yawl, etc., are described in column 2 simply as Sloop, Yawl, etc.

LR Identity No. (column 1). The six figured number printed in bold type, prefixed by the letter Y, will be used for automatic data processing and will remain unchanged during the life of the yacht.

Signal Letters (column 1). These are assigned by the National Authorities.

Official No. (column 1). The number in lighter figures is the official registered number of the yacht, assigned by the National Authority. In the case of British and Commonwealth yachts it is assigned by the Registrar-General of Shipping and Seamen, Llantrisant Road, Llandaff, Cardiff, CF5 2YS.

International Offshore Rule. (column 2). The I.O.R. ratings (to the Mark III rule) are as notified by the Rating Secretary of the Royal Ocean Racing Club.

Master's Certificates. (column 3). An asterisk * before an Owner's name indicates that he has obtained a Certificate of competency as Master, as issued by the National Authority.

Tonnage (column 4). Thames Measurement Tonnage is an approximate representation of the internal capacity of a yacht derived from a system of measurement adopted by the Royal Thames Yacht Club in 1854 and amended in 1962. The formula for computing the Thames Measurement Tonnage is as follows:—

$$\frac{(L-B)\times B\times \frac{1}{2}B}{94} = \text{Thames Measurement Tons}$$

Where:—

L = The length measured from the fore side of the stem at deck level to the aft side of the stern-post at deck level.
Where the stern-post does not extend to deck level the measurement shall be taken to:—

(a) the prolongation of the line of the aft side of the stern-post to deck level;

(b) if there is no stern-post, to the centre line of the rudder stock at deck level or the prolongation of that line to deck level;

(c) if there is no stern-post or fixed rudder stock, or if the rudder stock is wholly abaft the transom, the measurement shall be taken to the aft side of the transom at deck level.

B = Extreme breadth of hull, excluding protrusions such as rubbing strakes, beltings, chain-plates, vents, etc.

Measurements to be taken in feet and tenths of a foot.

The tonnage determined in accordance with the above formula shall be expressed to the nearest ton. Fractions of less than half a ton shall be ignored and fractions of half a ton and over shall be taken as one ton.

The rule shall not apply to yachts of more than one hull.

In the case of a British yacht officially registered but not classed with Lloyd's Register, the registered length is used in the Yacht Register in computing the Thames Measurement Tonnage.

This tonnage appears in the Register in the case of every yacht where these dimensions are known, and is printed below the official tonnages where these tonnages are given.

Where yachts are officially registered, the official registered tonnage measured according to the law of the country to which the yacht belongs is recorded in type like that shown at the side hereof. — 204·51 (Net) 546·65 (Gross)

When the tonnages are given in italics, they are not those assigned by the country to which the yacht now belongs. — *204·51* (Net) *546·65* (Gross)

Lloyd's Register Tonnage (column 4).

Lloyd's Register Tonnage (LT) is used for estimating hull survey fees of classed yachts and it is obtained from the formulæ:

$$\frac{L\,(OA)\times B\times D\times 0{\cdot}45}{100} = \text{LR Tonnage}$$

Where:—

L (OA) = maximum length, in feet,

B = maximum breadth, in feet, excluding protrusions,

D = moulded depth, in feet,

or $\frac{L\,(OA)\times B\times D\times 15{\cdot}9}{100}$ where length, breadth and depth are in metres.

Dimensions (column 5). The dimensions which are printed on the top line are given in feet and tenths of a foot and are those employed for calculating Thames Measurement Tonnage. In the case of yachts classed by Lloyd's Register, these are obtained from the Society's Surveyor's First Entry Report of Survey; where yachts are not classed by the Society, but are officially registered, the dimensions are obtained from the vessel's Certificate of Registry. In other cases the dimensions are as given on returns received from Owners, Builders, etc.

Manufacturers of high performance luxury diesel cruisers including the Super Swordsman, Spearfish, the award winning Fantome and the Amira.

We also operate a first class Brokerage Division. Our Agency Division represents Avon, Dell Quay Dory, Beneteau sailing cruisers, Coronet and the Vitamarine range of runabouts.

The Fairey Yacht Harbour can accommodate boats from 30ft to 70ft up to 8ft draft. An 80,000lb capacity mobile hoist will lift craft from the water. The full range of Fairey Marine service are available including experienced boat builders, engineers, electricians and painters.

BROOKES & GATEHOUSE LTD

was established in 1956 for the purpose of designing and manufacturing electronic aids for yachts and other small vessels. We were, we believe, the pioneers in this field. We have specialised in it ever since, building up a unique store of experience upon which to base our designs. Our policy is to design our instruments to provide very high standards of accuracy, which will be sustained over long periods in arduous conditions. Our designs are under continuous review to ensure that our customers get the benefit of the latest components and materials.

- The controls are simple to use and the boldly calibrated indicators, which are hermetically sealed, are legible in poor light at distances of three metres or more.
- The main instrument cases are die-cast in an aluminium-silicon alloy and coated in grey nylon by a fusion process. They are hermetically sealed and fitted with desiccators.
- All fastenings, control shafts etc., are in stainless or passivated steel, and shafts are hermetically sealed.
- Plugs and sockets are in palladium-plated brass or anodised aluminium and are hermetically sealed.
- All indicators are sealed against ingress of moisture to prevent condensation on the inside of the glass windows.
- All instruments are designed to withstand mechanical shock and vibration forces of up to 40g and to operate over the temperature range 0°—60°C.

EXPLANATION OF RECORDS IN THE REGISTER OF YACHTS—*continued*

The **length** entered on the top line is the length measured from the fore side of the stem at deck level to the aft side of stern-post at deck level, except in the case of unclassed yachts which are officially registered as British vessels, when the registered length is recorded.

The length entered on the second line is the length overall.

The length entered on the third line is the length on the water-line.

The **breadth** recorded is the extreme breadth.

The **depth** is taken from the top of floors to top of upper deck beams amidships.

The **draft** is the maximum draft to bottom of keel.

The **sail area** recorded is the area of the working sails and is given in square feet.

Date of Build (column 6). The completion date is accepted as the year of build. In the case of yachts built under Lloyd's Register Special Survey, the year of build is recorded as follows:—

Prior to 1903.	Date of Launch.
From 1903–1924	The last date of survey for first entry of classification when completed within six months of launching; otherwise six months after date of launch.
After 1924	Date of completion of Special Survey during construction.

Internal Combustion Engines (column 7)

Oil Engine indicates an internal combustion engine using heavy oil as fuel.

Petrol Motor indicates an internal combustion engine using petrol or other highly volatile oil as fuel.

Paraffin Motor indicates an internal combustion engine using paraffin oil as fuel although started up on petrol.

When known, the brake horsepower of each engine is published. In some instances the diameter of cylinders and length of stroke is shown.

Which?

Q. Who are the largest yacht insurers in the UK?
A. LLOYD'S

Q. Why doesn't one see their advertisements?
A. They don't advertise.

Q. How do they get their business?
A. From Brokers.

Q. Can't I walk into Lloyd's and insure my yacht?
A. No, you must go to a Broker.

Q. Any Broker?
A. No, only Lloyd's Brokers or agents thereto.

Q. Who are the largest yacht insurance companies in the UK?
A. Navigators, Royal, Norwich Union, Black Sea, Northern Star, New Zealand, Century, Guardian, General Accident, Commercial Union, Pheonix, Provincial.

Q. Can I walk into any of them and insure my yacht?
A. Not all, some operate special schemes only through Brokers or Underwriting Agents.

Q. So one has to go to a broker for a full choice?
A. Yes.

Q. Who are the largest Yacht Insurance Brokers in the UK?
A. Newton Crum Insurance are the largest effecting yacht insurance only.

Q. Who recommend them?
A. More class yacht owners associations effect their official insurance schemes through them than all other brokers combined.

Q. Why isn't my local boatbuilder an agent for them?
A. They don't have agents.

Q. Why?
A. Few boatbuilders are expert at Insurance, they demand 10-15% commission which puts up the premium, they usually slow down claim/quotation service.

Q. So how much cheaper is Broker effected insurance than agent's?
A. Usually 10-15%, often more.

Q. Is the service good?
A. Better, no middle man.

Q. Why is the office in the City of London?
A. That is where Lloyd's and the major marine insurers are.

Q. How quickly can I obtain a quotation?
A. Immediately, just telephone or write.

Q. How quickly can I obtain claim instructions?
A. Immediately, just telephone or write.

Q. For special attention who can I speak to?
A. A Director, if necessary, will *always* be made available to any client.

Q. You mean a director of Lloyd's or the large Companies?
A. You must be joking! Only in the specialist brokers is such service not only available, but guaranteed.

Q. Can I get your terms without my present insurer being contacted?
A. Of course, all quotations are in strict confidence.

Q. What will it cost me?
A. Nothing.

Q. Will anyone call at my house or am I under any obligation?
A. Certainly not.

Additional facts: Newton Crum effect only yacht insurance, no other. Newton Crum specialize in craft built after 1952. Newton Crum Staff have been effecting Yacht Insurance since 1932. Because, even with such specialization, one cannot cover the entire range of insurers, Newton Crum operate in association with St. Margaret's Insurances Ltd. and B. A. Taylor (Insurance) Ltd. to provide better terms, more often.

Send for terms and quotation (without obligation) for insuring your craft to:—

How to choose the money once you've chosen your boat.

Ask Mercantile Credit. Because you'll take a lot of time and care choosing your boat. And because deciding how to pay for it is just as important. At Mercantile Credit we're experts in marine finance and we'll be pleased to talk to you about the kind of loan you need.

Marine loans. For sums between £150 and £1,500, repayable over three or four years.

Marine mortgages. For sums over £1,500, repayable over up to seven years.

If you're having your boat built. We can arrange progress payments for new craft under construction.

Income tax relief. You qualify for tax relief on all the interest you pay over £35 a year. And if you already have a loan—for a car, say—you can add the interest to your marine loan or mortgage interest for tax relief purposes.

Competitive interest rates. The interest you pay depends on how much you borrow, but whether you choose the fixed or the fluctuating rate, you know that our quote will be highly competitive.

Quick decisions. With Mercantile Credit you know you'll get a decision on your application quickly and confidentially, with no fuss or bother—within 48 hours, or less, subject to survey and valuation.

For further information and an application form, fill in the coupon and post it in an unstamped envelope to:

Decko To clean and restore the natural colour and texture of teak decks. No hard work required. Simply sprinkle Decko from the handy plastic dispenser onto the wet deck, brush evenly, leave for 4 minutes to facilitate the unique cleaning action and then rinse off with water. Recommended price— **70p** per container.

Rapido The universal cleanser for use with sea water. Rapidly cleans paint and varnish work, as well as all types of rubber and plastics. Ideal for cleaning fibreglass dinghies and for those particularly difficult jobs such as oily topsides, fendoffs and ropes. An excellent bilge cleaner. Recommended price— **60p** per container.

PREFACE *page*

Preface to the 1974 Edition of the Register of Yachts iii

Notes on classification with Lloyd's Register of Shipping iv

YACHTS

Abbreviations and definitions of terms used in the Register xii

REGISTER OF YACHTS, giving particulars of official numbers; signal letters; type; Owners' names; ports; tonnages; dimensions; Sail-makers; Builders', Moulders' and Designers' names; dates and places of build; engines; details of classification of yachts classed with Lloyd's Register of Shipping 1

Particulars of new yachts not yet named... ... 984

List of One-Design Classes 987

Sail Numbers of Racing Yachts... 997

List of Signal Letters of Yachts in the Register... 1089

Late Names (ex-names) of yachts 1105

YACHT OWNERS *page*

Abbreviations used to denote the clubs referred to in the List of Owners 1218

Names and addresses of Owners of Yachts listed in the main Register, with their clubs and the names and tonnages of the yachts they own... 1223

CLUBS AND AUTHORITIES

International and National Authorities... ... 1033

Geographical List of Yacht Clubs 1037

List of Yacht and Sailing Clubs with their officers and other useful particulars 1045

YACHT BUILDERS, MOULDERS AND DESIGNERS

List of Builders, Moulders and Designers with the names of yachts built and/or designed by them appearing in the Register 1129

MISCELLANEOUS

Yachts listed in the 1973 Edition of the Register but omitted from the 1974 Register 1447

INDEX OF ADVERTISERS xxxi

REGISTER OF YACHTS

1974

Extract from the Society's Regulations:—

"The Committees of the Society use their best endeavours to ensure that the functions of the Society are properly executed, but it is to be understood that neither the Society nor any Member of any of its Committees, nor any of its Officers, Servants or Surveyors is under any circumstances whatever to be held responsible or liable for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any act or omission, default or negligence of any of its Committees or any Member thereof, or of the Surveyors, or other Officers, Servants or Agents of the Society."

Every effort is made to ensure the accuracy of the information contained in this book.

It must, however, be appreciated that many changes of ownership, name, class and other particulars occur during the currency of this edition and after the issue of the two Supplements.

The Register and Supplements can therefore never be entirely up to date.
